Dear Minister Lawler

RE: ANNUAL REPORT ON MATERIAL INSTANCES OF NON-COMPLIANCE WITH THE PORT ACCESS POLICY AND PRICE DETERMINATION FOR 2022-23

The *Ports Management Act 2015* (the PM Act) establishes the Utilities Commission as the economic regulator of the port access and pricing regime for the Port of Darwin. Section 121(1) of the PM Act requires the Commission to report to you as the Minister for Infrastructure, Planning and Logistics by 1 December each year about:

- (a) any reports received from the private port operator on material instances of non-compliance with its access policy, which was approved by the Commission on 12 April 2022; and
- (b) any instances of material non-compliance with a price determination made by the Commission under section 132 of the PM Act.

This letter is the Commission's annual report in accordance with the PM Act. The PM Act also requires that you, as the responsible Minister, table the report in the Legislative Assembly within seven sitting days after receiving it.

Section 130 of the PM Act requires the private port operator to report to the Commission, by 30 September each year, on any material instances of non-compliance with its access policy. The private port operator reported to the Commission by the due date and advised that there were no material instances of non-compliance with the access policy during 2022-23.

On 19 January 2022, the Commission issued the 2022-2025 Prescribed Port Services Price Determination Port of Darwin, which will be in place until 15 February 2025. The Commission is not aware of any material instances of non-compliance by the private port operator with the Price Determination during 2022-23.

If you have any questions in relation to this letter please contact Ms Kimberlee McKay, Director Utilities Commission on 8999 7476 or kimberlee.mckay@nt.gov.au .

Yours sincerely

Lyndon Rowe
Utilities Commissioner
