Dear Sirs

**Submission in relation to Eni Australia Limited Variation of Generation Licence Application**

Territory Generation (**TGen**) appreciates the opportunity to provide submissions in relation to Eni Australia Ltd (**Applicant**) application for a variation of its Generation Licence to include two solar photovoltaic power stations at Manton (10MW) and Batchelor (10MW) and connecting to the Darwin-Katherine electricity network (**Application**).

TGen has no objections to the Application.

TGen notes Infigen Energy NT Solar Pty Ltd (Infigen) obtained approval for a generation licence for these projects which have now been taken over by the Applicant. TGen reiterates its submissions dated 27 April 2018 made in relation to the licence application of Infigen.

T-Gen would welcome further consultation with the Applicant, Utilities Commission and other electricity entities.

If you have any queries or require further information please do not hesitate to contact me on (08) 7979 2529 or at [arul.selvaretnam@territorygeneration.com.au](mailto:arul.selvaretnam@territorygeneration.com.au)

Yours sincerely

A handwritten signature in black ink, appearing to read "Arul", followed by a horizontal line extending to the right.
